Figma

Professional Experience

WCode | Full Stack Developer

Aug 2022 - Current | Remote

- Architecting, developing, and managing cutting-edge APIs and robust backend applications using the dynamic capabilities of the Go programming language.
- Designing and managing database operations, from seamless migrations to performance-focused upgrades, ensuring uninterrupted functionality and maintenance of database systems, including PostgreSQL and MySQL.
- Support Tickets, successfully resolved customer inquiries and support tickets, providing efficient and effective solutions to ensure customer satisfaction.

Widgilabs | Front-end Theme Developer

Nov 2021 - Aug 2022 | Remote

- Utilized Webpack, Tailwind, Sass, and Gutenberg blocks to develop custom WordPress themes that prioritize top-notch performance, intuitive user experiences, and flexibility in building intricate layouts and designs.
- Leveraged Git version control and Jira issue tracking to streamline project workflows, and integrated Bitbucket with Agile and SCRUM methodologies to enhance our team's efficiency and collaboration.
- Capitalizing my knowledge of UX/UI design principles and proficiency with Figma, I created custom website designs that were truly one-of-a-kind.

Discovery Tecnologia | Front-end Developer

2018 - 2021 | Remote

- handled all aspects of website design and customer interaction. Using Webpack, Tailwind, Sass, and Gutenberg blocks, I developed custom WordPress themes that prioritize performance, user experience, and flexibility. I also incorporated JavaScript and AJAX to create responsive and dynamic websites. Leveraging my proficiency in Figma and knowledge of UX/UI design principles, I designed unique and compelling website layouts.

Education

SENAI CTAI Tech College | Software Engineeting

2017 - 2019 | Brazil - Santa Catarina
